And I have started the repayment of installment @ Rs. 4000 from January 2008 up to February 2020 i.e. for a period of 12 years i.e. about 144 months and my loan A/c has shown the outstanding amount of Rs.3,84,000/- (three lakh eighty four thousand rupees) that means all amount paid by me is credited towards interest only more over the rate of interest is now reduced and the amount paid by me may be adjusted in principle and for the balance amount reasonable installments may be fixed and enabling me to clear the loan more over the installment period is also completed.

Therefore I request your bank authority to settle my loan A/c.
